### DISCUSSION

### ANNOUNCEMENTS

- Now posted draft agenda for June 27-28, 2012 Annual Meeting (Teaching and Learning Center Folks included) – UC San Diego
  - Action Item: All check out draft agenda at <u>https://spaces.ais.ucla.edu/display/ucetlg/June+27-28%2C+2012+Annual+ETLG+Meeting+Agenda</u> How would we like to do our campus updates so that we can save time during the face to face?
- Welcome to CTL folks
- Regrets from Rose, Jeff Henry,
- Other agenda items?
- 1. Approve minutes (February 6, 2012 meeting)

To be approved via email.

## 2. Faculty Support for Online Instruction (Rosemary / Lisa Rothrauff)

UCD - Workshop Series: Designing Courses for Hybrid Delivery (http://cetl.ucdavis.edu/designing-hybrid-courses/)

- UCD Provost pointed out that there are dis-incentives to doing this
- Faculty indicated that they need TA help, consulting to make this happen
- UCD Provost authorized 4 awards \$12,500 each for 4 courses (could be teams or individuals)
- Driven by UCD course approval process
- Instead of 1:1 faculty support, this model relies on groups / creating a learning community
- Focused on UCD specifically
- UCD will offer faculty \$250 if they complete 7-8 workshops
- 15-20 spaces available in each workshop (created demand)
- Hard to devote time to course design when instructors aren't teaching... some faculty still wanted / need 1:1
- Workshops = 2-7 hour commitment per/week + consulting hours
- Rosemary works closely with Dan Cummings at UCD on this initiative
- UCI also has a multi-day institute in July with similar objectives

IDFS system wide offering - helping faculty to learn to teach online via a "blended course"

- One focus of IDFS course: What does it take to redesign a syllabus so that it can be approved for UCOE?
- Outreach to faculty development offices as well
- IDFS organized an early Feb. meeting to map this course out
- Some topics include: Universal Design / ADA issues & FERPA (possibly as a thread throughout the modules)
- Potentially could be a 1-2 week boot camp
- IDFS will be finalizing the modules in the coming weeks
- Effort to be general so that it works across the UCs + localized info

The group discussed incentives – focus on learning outcomes, other deliverables

#### 3. Pedagogical Issues

- UCI
  - Not having enough instructional designers on staff when people do come in, there aren't enough resources pedagogy is easier but they need help with the tools
  - The number of people anxious to get going with online learning but just want lecture capture ppt. + pdf – not really transforming their teaching for online delivery

TLG Educational Technology Leadership Group

- Even with carrots, faculty don't really change
- Faculty are feeling a need to have a set of examples (IDFS is working on this)
- · Really don't have a repository of learning objects (to make it easier for people to integrate more interaction)
- UCI tried raptivity proprietary programs to create interactive activities action, demonstrations, but not as intuitive as originally thought OIPP should have a (re-usable) learning objects repository eventually?
- It is almost a curation process
- UCI collects a long list of resources, and try to do a screening, but it is overwhelming Just to pair things down is helpful
- eLearning Tools (Jane Hart's) center for learning and performing technologies <u>http://c4lpt.co.uk/top-100-tools-for-learning-2011/</u> (Mike Truong)
- See udacity online course (CS 101) http://www.udacity.com/ a model of online learning
  - What is it about udacity that makes it nice a low production value (writing on napkins in front of a doc camera) it can make you feel that the distance is smaller (not fancy, but feels down home)
  - Gail add intimacy
  - Mike you feel like you are part of the class due to home made video feel not fully staged. Very short videos (segments are manageable) The student can listen to 2-3 segments in 8 minutes and be done
  - Quiz every 2-3 segments (to reinforce the ideas) then test at the end of the section
  - Mike is taking CS101 creating a search engine in Python.
- What about eTexts?
  - UCB will be doing a pilot next year eText books to see how it is going to work
- Kirk captioning exploring the requirement to caption COGI \$1.50/minute. COGI came back and said they had teamed up with universal subtitles (to create a crowd sourcing notion) – that might allow us to use student (See Ted Talks – translations efforts) Maybe this could alleviate the logistics issues with captioning (and commentary). First pass with COGI and clean up pass with instructors / students.
  - George met with COGI as well
  - o Action Item: Jim to organize COGI demo for ETLG and CTL
- What about the process of our perennial effort? Should we outsource this survey of faculty need?
  - What is it that we are trying to learn here? Pedagogical issues (blockers for us) vs. faculty need
  - Can we focus in on different areas: helping faculty to learn to redesign their courses for new delivery formats?
  - Action Item: Ask ITLC what they are looking for on this?
  - Leo What are the individual campus drivers that requesting comments. Faculty aren't pushing for these changes...?
  - Space learning and collaborative spaces what are the constraints that our spaces
  - What are we trying to achieve in negotiating with faculty?
  - What does ITLC want? Successes in our efforts, big stumbling blocks?
- Mike: Are there initiatives on Mobile Learning? Nothing formal at Merced?
  - Mobile Apps learning lounge informal meeting to explore different apps that have educational value. They provide a directory of apps 25-30 apps students attend (and become the teacher) in these events See VOXER <u>http://voxer.com/</u> can this be used for instruction? Students of this generation like audio but not really phone calls. Comments felt more positive (can hear the tone of the voice) research (UK instructional innovation lab in Australia) has shown (Voxer works IOS and Android)
  - Mike also wrote an article about audio essays allowing students to talk out their essays they then discover awkward
  - o UCSB student affairs has been pushing ahead with mobile apps
  - UCB does have some app discussion going on check out iPads
  - UCSD Cynthia UCSD -
- Action Item: Jim to send ITLC presentation slide deck to ETLG
- Related to raptivity <u>http://www.udutu.com/</u> opensource product authoring online learning solutions
- Lecture capture useful mini tutorials frees up the in-class activity capture has a way to use data to enhance instruction

#### 4. New Business

Possible next meeting topics

- o Update on IMS Rose
- eTexts How do we manage the different sorts appearing on our campuses?
- o Matterhorn
- Centralized resource of learning objects (UC wide) for IDFS
- Other new business?
