Editor's Note

- We are ramping up to bring you the next IAMUCLA Mini-Conference. Event details will follow, so we ask you to save the date: April 16, 2009, from 1 pm to 4 pm. One focus of the conference will be the transition to the new general UCLA logon page as well as the technical authentication component behind it. Other conference topics are still being decided on, so we strongly welcome your input. Please [contact us](#) with issues that you would like to hear about. A new feature of our event will be small breakout groups after the main presentations where participants can discuss in detail the specific topics that they would like to know more about. [RSVP here](#)
- A reminder, the **beta** Shibboleth SP 2.1 Configuration Guide is now available for both Apache/Linux and Windows/IIS. We are asking that ISIS administrators who are planning to migrate to Shibboleth help us review to documents and offer any suggestions / improvements. **Note:** You will need to login with your UCLA Logon ID before being able to view the document. [Click here to see the beta guide](#)

System Announcements

There are no updates or patches scheduled for this week.
