

UC Grid Integration

UC Grid Integration

This is an *ad hoc* project to look at appropriate integration of UC Grid into UCTrust, based on the assumption/vision that UC Grid will become *the* infrastructure of services within UC, used by all members of the community.

The participants are Prakashan Korambath, Keijian Jin, and Bill Labate of the UC Grid project, as well as Albert Wu, Arlene Allen, and David Walker of UCTrust.
