UCTrust Workgroup Home

UCTrust is the name given to the collective (Identity and Access Management) IAM teams across the UC system. UCTrust was created around 2007 to establish common operating procedures and practices for Identity Management systemwide, to support interoperable practices. Mostly commonly end users see the results of this Workgroup when logging into UC systemwide services using "Single Sign On" with accounts provided by their home campus.

UCTrust Work Group Public Resources

UCTrust Campus Contacts - IAM team leads and contacts for campus-related IAM assistance

UCTrust SSO configuration requests - The onboarding process for multi-campus SAML integrations.

UCIDMGMT-L@listserv.ucop.edu is used for communication within the UCTrust Work Group. An archive of the messages is available to members of the list.
